TECHNICAL SKILLS

Programming Languages
- Java
- JavaScript
- C/C++
- Python

Hardware
- Verilog (HDL)
- ARMv7
- X86-64

- Linux OS
- OpenCV
- Git
- Vim

Software
- SOLIDWORKS
- MATLAB
- IntelliJ IDEA

EDUCATION

University of British Columbia **Expected Graduation May 2023**
Bachelor of Applied Science – Computer Engineering

ENGINEERING STUDENT TEAMS

AgroBot, University of British Columbia **September 2019 – Present**
Navigation team member
- Contributed to producing an autonomous robot aimed to exterminate weeds in farms
- Designed and implemented the on-board navigation system of the robot in a team of 5
- Created a navigation algorithm using image-processing software

TECHNICAL PROJECTS

Assignment Scheduler, nwHacks 2020 **January 2020**
- Created a Google Chrome extension that detects and sorts tasks from the webpages that users browse
- Produced an extension using JavaScript and HTML/CSS and Firebase by Google
- Integrated Google Cloud Natural Language API to provide an informative description of tasks

Braille-ify, LHD Build Day **November 2019**
- Implemented an application that parses websites and translate them into braille
- Developed code to translate from English text to braille displayed on a user interface
- Planned future integration with hardware using Raspberry Pi or Arduino

Simple RISC Machine, University of British Columbia **September 2019 - December 2019**
- Constructed a reduced instruction set computer using Verilog to design key components
- Developed an instruction set architecture supporting basic assembly instructions

WORK EXPERIENCE

University of British Columbia, Vancouver, BC **January 2020 – Present**
Undergrad Teaching Assistant
- Helped students to better understand fundamental coding concepts during office hours and lectures
- Acquired excellent communication skills while interacting with instructors and students

INTERESTS & ACTIVITIES

Competitive E-sports
Active member of the UBC Overwatch Premier Team participating in multiple collegiate tournament
